SLIDING WINDOWS **MF86**

Much like sliding doors, sliding windows open horizontally, by sliding along rails. Sliding windows are easy to use, low maintenance, and economical. Sliding windows also offer the possibility of having very large windows which can be easily opened without significant effort.

Standard: AS2047

> Design	SLS/ULS:	600Pa/2000Pa

- > Brand: Doric
- > Origin Country: Australia
- > Model: DN560
- > Colour: Black, Silver

The DN560 sliding window lock is the perfect compliment for windows that demand style.

AWNING WINDOWS **MF86**

As the awning window's chain winder is located on the sill, these windows can be positioned higher up along the wall to limit anyone being able to see in, whilst still allowing in all the fresh air and natural light. Alternatively, if this type of window is used in a bathroom, using obscure glass allows you to use this window for ventilation whilst still getting all the benefits of the privacy glass.

MF Range // 12

SLIDING DOOR MF86

Sliding doors open horizontally. They sit on wheels or are suspended on a track, unlike standard doors which are suspended on hinges and open by turning. Sliding doors are commonly used for bathrooms and external glass doors. Sliding doors save space, allow maximum light, and can create an open and spacious appearance.

Standard: AS2047

SLIDING DOOR MFT100

THERMAL BREAK

Our architecturally designed sliding door system, which is thermally broken incorporates slim design features within a platform purposely created for modern residential applications. The thermal break reduces the straight-line heat transfer (both outwards on cold days, and inwards on warm days.) Integrated with stainless steel tracks, heavy duty nylon runners and mesh screens for smooth, quiet operation and home security. This series features a unique system with up to five sliding panels in each direction. Our system has been tested for compliance with the relevant Australian standards, achieving very high ultimate strength of 3300 Pa and water resistance of 300 Pa and low air infiltration. It can be paired with MFT own heavy duty screen door or the Brio 612® retractable or Crimsafe® heavy duty / fire rate screening system.

SLIDING WINDOW MFT100

THERMAL BREAK

This architecturally designed sliding window system comes in non-thermal and thermal broken options which incorpo rate slim design features within a platform purposely designed for modern residential applications. Integrated with stainless steel track, nylon heavy duty runner and Doric ® recessed lock and optional heavy duty mesh screen for smooth, quite operation and your home security. To slow the time taken for the temperature outside to flow inside you can select our thermally broken window frame. These frames contain a reinforced polyamide strip (which is a specially formulated rubber). This creates a barrier which slows the rate of conduction between the window opening and the inside of the home which saves you money on heating and cooling costs. It can be paired with the Crimsafe® heavy duty/fire rate screening system.

Technical characteristics

Maximum height	1800mm
Maximum window panel width	1500mm
Available glazing	Double glazed - up to 6mm
Frame depth	100mm
Bottom frame height	62mm
Extrusion profiles	1.8mm Thickness Aluminium
Powder Coating	AKZO-NOBLE Interpon Powder with 10 Years Warranty
Flyscreen	Stainless Steel Mesh
Fixing Method	Sub Frame/Fin Fix/ Timber reveal
Hardware	Doric

CUSTOMISATIONS FLYSCREEN SELECTIONS

D811 Security Screen

> Material: SUS304
> Finishing: Powder coating
> Thickness: 0.8mm
> Weave: 11/m ²
·

> Colour: Black, Grey

D218 Security Screen

> Material: SUS304	
> Finishing: Powder coating	
> Thickness: 0.185mm	
> Weave: 18/m²	
> Colour: Black	

D514 Security Screen

> Material: SUS304
> Finishing: Powder coating
> Thickness: 0.5mm
> Weave: 11/m²
> Colour: Black, Grey

1511 Pet Screen		
> Material: 30% fabric, 70% PVC coating		
> Finishing: Powder coating		
> Weave: 360g/m ²		
> Weave: 15*11/inch		
> Colour: Black

CUSTOMISATIONS GLASS SELECTIONS

Single Glass

- > Thickness: 5mm/6mm/8mm/10mm/12mm
- > Treatment: tempered, heat soaked, thermally tempered
- > Colour: ultra clear, clear, obscure, tint
- > Finishing: reflective, spendral
- > Feature: safe, strength wind pressure, high impact resistance

Laminated Glass

- > Thickness: 8.76mm/10.76mm/11.14mm/12.76mm/13.14mm
- > Treatment: tempered, heat soaked, thermally tempered
- > Vinyl Interlayer: PVB
- > Interlayer Thickness: 0.38mm/0.76mm/1.14mm
- > Colour: ultra clear, clear, obscure, tint
- > Finishing: reflective, spendral
- > Feature: safe, strength wind pressure, high impact resistance, reduce noise

CUSTOMISATIONS GLASS SELECTIONS

Double Glass

- > Thickness: 6mm+12A+6mm/6mm+12A+8.76mm/6mm+9A+10.76mm
- > Glass Spacer Colour: silver/black
- > Gas: air/argon
- > Treatment: tempered, heat soaked, thermally tempered
- > Colour: ultra clear, clear, obscure, tint
- > Finishing: reflective, spendral
- > Feature: safe, strength wind pressure, high impact resistance, reduce noise, energy efficiency

CUSTOMISATIONS FIXING METHOD

Sub head, Sub Sill, Angle

Features: High water leakage resistance, simple installation (saving labor), safety, fast delivery

Wall structure suitable:

- > Concrete structure
- > Light Guage and Hebel Structure
- > Double Brick Structure
- > Light Gauge and Brick Structure

Application: Commercial Buildings, Apartment, Townhouse, Dwellings

Sub Head

Sub Sill

Angle

Sub head, Sub Sill, Sub Frame

Features: High water leakage resistance, simple installation (saving labor), safety, fast delivery

Wall structure suitable:

- > Concrete structure
- > Light gauge and hebel structure
- > Double brick structure
- > Light gauge and brick structure

Application: Commercial Buildings, Apartment, Townhouse, Dwellings

Sub Head

Sub JOMB

CUSTOMISATIONS FIXING METHOD

40mm Fin

Features: High water leakage, resistance, simple and fast installation, safety

Wall structure suitable:

- > Timber stud and 100/150mm hebel structure
- > Brick veneer structure
- > Light gauge and brick structure

Application: townhouse, dwellings

40mm Fin

Timber Reveal

Features: high water leakage resistance, simple and fast installation, safety

Wall structure suitable:

- > Timber stud and 100/150mm hebel structure
- > Brick veneer structure
- > Light gauge and brick structure

Application: townhouse, dwellings

Timber Reveal

FINISHINGS **POWDER COATING**

Standard Colour

Black/Monument/Grey/White

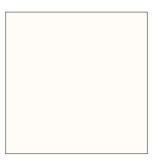

Smooth Black C31122S 2 GN

Smooth Monument GP22PC

Light Grey C30520 S 2 GP

Smooth White C31878 S 2 GB

Custom Colour

- > Brand: Interpon
- > Customised Colour: Colourbond or RAL swatches
- > Warranty: 10 years, higher resistance products also available

Features: safe, clean, economical and eco-friendly excellent performance Meet the wide range of global coatings standards.
